

## **“NO HOME PHONE – NO PROBLEM!”**

**First Response  
Proudly Introduces Our 2015**

### **CELL DIALER Medical Alert System**

First Response System.com offers independent seniors, at-risk older adults and their families, with the latest-generation technology medical alert systems and devices. As more households are cancelling traditional landline phone service, our Cell Dialer System is the perfect and alternative solution where a standard phone line is not available nor needed.

#### **Our Cell Dialer System Saves You Money**

No standard phone line or cell phone needed. **SAVE MONEY** every day of the year when you use our Cell Dialer System by First Response. Enjoy the same reliability and high-quality performance of our traditional landline system without the burden of phones, wires, line service and expensive phone bills.

#### **Affordable Rental Price Plan Options – NO Activation Fees – NO Long-term Agreements**

Monthly @ \$42.95/ month\*

Quarterly @ \$39.95/ month\*

Annual @ \$37.95/ month\*

*\* All rates include system equipment and 24/7 emergency monitoring service w/live operators!*

#### **Our #1 Rated Cell Dialer System – Easy to Use**

Our Cell Dialer System by First Response is easy-to-use, maintenance-free and requires minimal set-up and activation.

- Press and release your panic/help alert button (worn as a bracelet or necklace) to send a wireless signal to the monitoring base station console.
- Our Cell Dialer unit (attached to the base console) transmits an emergency alarm signal through a nationwide cellular tower network directly to the First Response National Emergency Monitoring Center.
- A First Response live, certified EMS operator communicates with the system user to dispatch local 911 emergency service responders to the user location, if needed.

#### **System Set-Up and Activation is Simple & Fast**

Your new Cell Dialer System from First Response requires a simple set-up that can be performed in a matter of minutes. By using the step-by-step instruction sheet, our “plug-and-play” system is ready for set-up and activation right out of the box. A quick call to our Central Operating Station to conduct a live system test gets you connected to our national emergency monitoring center 24/7/365!
